He has told me several interesting facts. do you think it would be useful if I write my conversation with him in a book form? please tell me frankly about it & I will never misunderstand you who are one of my most valued friend.

With every good wishes to self & family

My revered friend,

It is a long time since I have not heard from you. I trust you are all keeping well.

Last month I went on my preaching tour, & I had very good opportunities for the Lord's work in the Hills. I shall be going down again in a few days to attend a conference at Meerut. In November I will be going to attend another conference in central India (Jubbulpore).

I Enclose herewith a type written manuscript of my new book "The Real life". please give it to Mr. Thulin, J. A. Lindblands Förlag, uppsala, or to some other publisher whom you may consider good publisher.

I want to insert in appendix an article "The Real Spiritual life", but unfortunately I have not got any copy of the article. I will try to get it & send it to you later on, if not then omit the appendix. I think I sent you a

copy of that article. I shall be much obliged if you insert it in the book in case you have got it.

My health is much better now thank God. I believe that God has spared my life for a little more time in answer to many prayers of my dear friends like yourself. I thank you heartily for your prayers & & ian love.

Thank you very much for your kind letter & a Swedish copy of the "Realist and Religion" which I have duly received. but I have not yet received the royalty on this book. about which you wrote me that you are going to send this money. I know that you are very busy in your work for the Land.

Last week I returned from my Evangelistic tour in different places in India. but I could not work more than a few weeks, as my lungs are not very strong now.

Our friend Dr. Heiler of Marburg must have sent you the articles in which he has published the facts to prove the lies of Jesuits. May God forgive them.

My dear Bishop, <sup>Living</sup>

Thank you so much for your kind letter of Dec. 8th. but I am sorry to say that I have not yet received any copy of the "Verklightet och Religion" but have received twice the translation of at the Master's feet if you I think by mistake this book has been sent instead of the "Reality and Religion". I shall be thankful if you would kindly ask your publisher to send a copy of the "Verklightet och Religion".

I shall be thankful if you would send the money you mentioned in your letter about the Royalty of "Reality and Religion" in Swedish. you can send a cheque as you sent last year. that will quite alright.

I have sent many facts to Prof. Heiler of Marburg to refute the false attacks & lies of Jesuits. the Jesuits have jealousy because they felt that I don't believe in churchianity but in Christ which is Christ himself. and church is only ~~the~~ a part of the body of Christ on Earth. and the Jesuits think that if they will not now cry against me, then my increasing

influence may lead Roman Catholics  
to become protestant. these attacks  
are not a new thing, it has been  
always so, as in the days of reformation  
when I was in Wittenberg, Germany  
I was surprised to see in a library  
a large & much literature written  
by Roman Catholics against the  
dear servant of the Lord Luther. It  
is a great privilege to suffer with all  
the servants of the Lord. Matthew 5: 11, 12.

If hope to write another book on  
"Meditation" some time this year  
if I could find time.

Sulbathu, Simla Hills.  
India. 1.12.24.

My dear Bishop,

I have just return from my tour in South India & central India, you will of remember that we sent a cable to you from Chhindwara. I was there for three days to address the meetings.

you may have heard that Roman catholics have been writing false against me their purpose is to show in a cunning way that they can be no mystics out of R.C. church. and they were afraid that by my influence many R.C. may become protestant. So that they began to write against me. but it made no difference in India, because the people here know me personally, they can't be deceived by enemies. But they might deceive some people in Europe who do not know me personally.

one alexander Nugent of ujjain, who thinks that he is the only wise man & all thousands of people & missionaries are fools, because they are my friends, he is my enemy from the time I saw him in 1913. he does not know anything about me, because he was never friendly to me. first time when he saw me he was so ~~angry~~ angry that he did not like to see me. because he said it is a fraud to work as a ~~as a~~ like a Hindu Sadhu & it is a menace to the missionaries. I said that the Lord has called me to work as a Sadhu, but he said no. and a few years ago he began to write against me in a paper called "The Harvest Field" but when he could not prove then he stopped. and then on account of jealousy & enmity he thought that the R.C. people who are against protestant

would be best means to attack me. and about the telegrams which were sent by A.R.C Jesuit, an Indian by name Swift, about my death, he himself had confessed that he did so, although the R.C. have hidden him now here is a copy of that Jesuit's letter to the Editor of "Indian Witness" Lucknow, which is in the office of that paper. it was written in 1917 as follows:- "I have heard that Mr. Nugent has asked Sunder Singh Sadhu Jaran explanation about... the telegrams of his death. as these criticisms are undue on this man of God I beg to admit my fault before the throne of God before it is being revealed before throne of God. It was my fault that there exists any misunderstanding on the point. When he went to Calcutta for the purpose of going to Canada, and he could get no passport he came towards Bombay making a preaching tour. The first time I met him at Thana. the second time I accidentally met him at Nagoda. B.B. Ry. as I do not agree with S. Singh in certain points as I am a catholic and also I have no orders to write or speak with protestant, but as he has been subjected to criticism for nothing and as he has not taken any steps to defend himself, but is dumb like a sheep before shearers, I write this. I know full well that he is a servant of God and I admit before God that I was the man who sent telegrams about his death to his friends. I implore forgiveness for this from God and from him." Now you will understand the mischief which R.C. & Dr. Nugent tried to do. May the Lord forgive & bless them is my earnest prayer. Excuse me for the trouble I give you, I wanted to explain you something in order that some people might ask you about it. Now I close with kindest regards to self & family. Yours ever affectly

My dear Sadhu,

We understand that you are suffering from your eye and in your bosom. You are quite close to us although so many miles and mountains and seas and countries separate us, because in God's spiritual Church there are no geographical distances. God certainly sent you especially to your own Indian people, but He gave you a great vocation for our Western Christendom, and our common dear friend Professor Heiler sent me the proof-sheets of his new little book on Christ in India. God has blessed you richly in spite of persecution and sufferings, and He has given to His whole Church a wonderful blessing through you, His faithful servant in love and faith. It would be to me one of the greatest boons of my life, if I might meet you personally once more. But even in distance I feel your presence helpful, exhorting and strengthening. May God keep you faithful in His love, in His heavenly communion unto the end. If it is His purpose, we should de-

sire most earnestly all of us to keep you many, many years on this earth as an Evangelist through life and preaching and writing. I am an old man in comparison with you, but before all we pray that God's will be done with us in health and sickness, in life and death. As Martin Luther wrote: "The one who has a gracious God, should he not break through mountains of copper and find everything delightful and sweet, not more mortal but living already here the eternal life".

In everlasting thankfulness to God for what he has given to me and to his Church through you, and in the hope that he will give you strength to pursue your sacred calling, I am with affectionate greetings from my family and from many Christian brothers and sisters in the Church in Sweden

My dear Friend,

Much has happened since I received your very kind letters in the earlier half of this year. The Universal Christian Conference on Life and Work surpassed our boldest hopes and our most ardent prayers. It was a hard and difficult undertaking. But God has not given us our abilities and powers for easy things, but for accomplishing His will. We felt deeply during the Conference a selfrestraint and an earnest passion for Love and Truth and Unity that ~~came~~ from the mighty presence of the Holy Spirit.

I send you our Hymnbook and the Message.

Our common friend, Professor Heiler, who is something of a Saint, and myself spoke intimately about you, and we pray for you, The members of my family send to you hearty greetings. We often speak about you.

I thank you most heartily for your two kind letters, which are illuminating in several respects. As soon as I read about the attacks on you, I published on the request of our greatest papers an explicit declaration, and I am glad that I was right in my supposition or rather, I am sorry to see how unchristian and immoral Roman catholic polemics can be. I am now writing an article on you more from a theological point of view, stating that the Roman Catholics who are sincere, ask themselves with anxiety: Can there be saints outside the Roman and Papal hierarchy, and roman apologists try to get rid of that difficulty in using any means, even untruth. I also try to show that the miracle in the sense of a miraculous event against the laws of Nature, have a great place in popular and learned Roman religion, as well as in primitive faith. But, according to our Lord, miracle is nothing negative but something positive, the revelation of God's wonderful might, <sup>and</sup> grace and answer to the prayers of the heart. You have advanced the same evangelic theory on miracle.

You have no better friend in Europe than Professor Fr. Heiler in Marburg, whom I love and admire, and with whom I have had the most intimate spiritual communion since he sent me his first great book on Prayer, where he has adopted my general view of religious development, and the differences between revealed religion and general mysticism. He is a pure heart and the greatest genius Roman catholic-

cism ever had on comparative religion. But in reading Martin Luther, he recognized the New Testament and became evangelic.

God bless ~~you~~ sincere and true hearts, who love Him for His own sake, and ~~are~~ fellowmen for their own sake, and who put God's rule above human considerations. Therefore I bless you, and I am with benediction and friendship

sincerely yours

My dear Sadhu,

I was very glad to hear from you again through your kind letter of Oct. 28th. It is a puzzle with your fine booklet that I translated. I have ~~sent~~ two copies sent twice to your address, and one single copy a third time in inscribed letter. I do not mean the earlier book, but I mean "Verklihet och Religion" translation of "Reality and Religion". I hope that you have now received at least one of these copies sent to you.

I have also that you got the small sum of 197 Crown<sup>4</sup> and 70 Öre sent to you in Indian money as a gift from Uelandshälsan in February this year, a gift from Mrs. Karin Lindström, Örebro, Sweden.

Now I have another small sum to send to you from the editor of "Verklihet och Religion". May I send it to this address in a cheque on a bank?

Your latest book has already appeared in a Swedish

translation made by a very gifted and intelligent translator.

Dr. Heiler and myself have occupied ourselves with the attacks made on you by the Jesuits. It is characteristic to note as I shall show in a forthcoming essay how these attacks come from the Roman Catholic conception of miracle and saint. It means to that conception an offense that there should be something like a saint and miracles operated outside the Roman hierarchy. Neither director, nor Dr. Heiler or myself have in our books written a single word against our Roman sister-communion, and I am happy to be able to quote yourself in favour of a more Christian and Evangelic conception of miracle as meaning not anything magical in the sense of what medicinemen amongst the primitive peoples and fakirs pretend to accomplish, but that miracle means that God reveals himself to a poor human heart in 1/ what appears to us, 2/ especially in the wonder of wonders, Jesus Christ and His cross, and 3/ in the peace given to a human heart, who trusts in God and receives through Christ the remission of its sins.

I am glad to hear that you are active and, although thousands of people would rejoice in having you as a presence in Stockholm next year, I think that your vocation is in the first place to love God, in all means, you must be faithful to your Master in not opposing your mental and bodily strength to a voyage that may diminish your possibilities in your beloved country or rather world off India and Tibet.

With hearty blessings your brother in Christ

My dear Sadhu and Friend,

I thank you very heartily for your very kind letter. But it is an agony to me and to my wife to have not as yet received the copies of your valuable for of your fine treatise, full of so much wisdom and so many assurances. This is helpful for every Christian soul. And two copies were sent to you. And my secretary sent two other copies together with my last letter. Now we are sending for the third time <sup>two</sup> copies, and in a separate cover, some documents on our great Conference in Stockholm, at which

It will be a real joy to all of us to have you amongst us.  
I am sure that means can be provided for your voyage. Please  
tell me about your actual work, and about your plans for the  
next future in India. We are living in constant spiritual  
communion with you. My young friend Sribrish Pillai in Mad-  
ras, a genius in comparative religion, has written a most  
deep and beautiful mystical treatise, his first book, the  
best book published hitherto.

With much affection and with our love from my  
family, especially from your little friend, I am,  
sincerely yours

My dear Friend,

I thank You most heartily for Your very kind letter and for the Manuscript that is being translated. I shall revise the translation and the editor will be glad to send to You the royalty of the book. You have many intimate friends here in Sweden who will receive Your message with thoughtful attention and gratitude.

I asked the editor to send to You a couple of copies of my book on You.

Looking eagerly forward to further communications from You and Your authorship and with my always living thoughts and prayers for You and Your work, and with many good greetings from my whole family, including my little grand-daughter, who has Your photo above her bed, I am

Your sincere friend

My dear Sadhu,

I suppose that our thoughts and our prayers have met, because your kind letter is certainly an answer to my constant fervent and loving thought of you and to my intercession. I was happy to know at Oxford, that you were still alive on earth. And I asked dr. Appasamy to write to you on behalf of a Swedish translation of the book you were writing. I shall be glad to procure a Swedish translation, if you can authorize me. I write to my editor in Stockholm asking him to send to you both my Swedish books on you. I suppose you saw my article in the INTERNATIONAL MISSIONARY REVIEW 1921 on you. I hope to be in Upsala December 19. Here I am visiting the Swedish Church in America working with American friends for the united life and work of Christendom and lecturing at the universities. My program is rather too heavy for my age. Much in this dollar-country is queer and repugnant to my mind, but here are also many wholehearted, cheerful and venturesome Christians who want America to share the responsibility of our torn Christian civilization. Mrs. Söderblom and my son Jon Olof are with me and send their hearty greetings. We keep you in affectionate remembrance. I have felt your spiritual presence, your image is before me. And if we shall not meet any more I feel eternal communion with you in Christ.

At home all seem to be well. One son is in San Francisco.

I shall not be home in the Swedish Academy at the distribution of the Nobel Prize this year. I scarcely believe that it will go to India the next years.

They want me to publish my last book on you also in English.

Always affectionately yours

My dear Friend,

Thanking you heartily for the kind letter of January 5th, I have sent a fourth copy of Verklighet och Religion, and I hope that it is already in your hands.

Today Upplands Enskilda Bank is sending to your address Pounds 11:10, being Swedish Crowns 204:47.

I have written myself a very explicit series of articles on the jesuit attacks which are abominable because they reveal an ignominious falsehood that is absolutely incredible. Professor Heiler has devoted to this cause so much love and acuteness, time and money that it proves anew his unselfish devotion to truth.

This story is a dark chapter in the history of the jesuits and one of the vices of Churchianity. But it can not but serve at least the end of God's Kingdom, and I wish you heartily strength and trust for fulfilling your great vocation.

With hearty greetings from all members of my family, I  
am affectionately yours

1. The first part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as  $t \rightarrow \infty$ . It is shown that the solutions of the system (1) tend to zero as  $t \rightarrow \infty$  if and only if the matrix  $A$  is stable.

The Bible says that if we love one another, we are like God.  
It says, "If we love one another, we are like God."  
It proved the fact that there is a God who loves the world.  
This action can meet the spiritual needs of men.

1. In receiving the kids I have found that with in no time I  
 2. have been able to teach them that we are not to be afraid of  
 3. the police and that we are not to be afraid of the police.

can be seen but the magnetic force which draws the needle to it is hidden and unseen and is not visible by telescope or microscope.

Many have sacrificed their lives for this work and for a job which it tells, because he first gave his life for his country. It is put to me to this life in it and, because he to a brother's life. But what about him who has died in a living life, give his own life. It seems that because he gave his life for a cause now or should be able to give an example of our lives for a good to his name, for others. That is why innumerable men and women have sacrificed and are giving their lives in the service, in order to bring others to life.

if I had not this book, which is God-given, how should I have ever known the infinite love of God which was revealed on the Cross. I thank and praise Him who gave His word to the prophets and apostles and priests and preachers of His word. I thank Him who made it possible for me to get this treasure which I am so thankful to be able to read and share with others. I will receive eternal life from the living Saviour by reading this precious book every day.
